Climatism offers
high quality services
and integrated solutions
for every project, having
22 years
of experience
in the field of air conditioning.

Our company was founded in 1995 in Glyfada for the purpose of trading air conditioning equipment. Our object is the construction of air conditioning and ventilation systems (HVAC) as well as hydraulic and electrical systems, in large scale domestic or industrial installations. Our company is also active in the maintenance of the above facilities.

Climatism has been working with the world's largest air-conditioning and ventilation equipment manufacturers for residential and industrial use, and since 2009 has been part of Daikin's Blue Dealers network.

Our company is staffed by
**mechanical engineers, electricians,
plumbers, HVAC technicians**
with a high level of training.

Specifically, the core of Climatism
consists of

45 people

and depending on the requirements and
needs of each project, we also work
with other technicians.

The Department of Studies
and Supervision consists of

12 Mechanical Engineers

with know-how and experience
in their field.

The company has

20 vehicles in total

of which two (2) are van and sixteen (16) mini-van,
fully equipped with the necessary equipment and in
accordance with the law.

In addition, our company has

autonomous facilities

for the construction of air-conditioning ventilation ducts
and has a permanent staff of eight (8) persons from
specialized craftsmen who undertake the construction
and installation of air ducts.

The last 5 years, our company has conducted the following projects with a construction value of at least **0.5 Million Euros**
